• I would definitely recommend this course to any other APAN students. The course content is carefully designed, and the professor is always there when we have questions. Professor Sultan is really knowledgeable, responsible, and friendly. I came to this course with no previous knowledge at all, but I felt okay with the difficulty of the lecture and assignment throughout the course. I would recommend this course because of both the importance of Java and of the professor. He is one of the greatest professor I have met so far.
